Summary

I seek the opportunity to be in a position to advance and improve on a daily basis. I am a highly motivated and creative web developer and graphic artist with versatile software and programming experience, as well as years of experience with defined management and people skills. I thrive on quickly learning the most innovative, technological advancements in the industry.

Experience

- **2006 – Present : Self-Employed PC Consultant & Web Developer**
    - o While continuing in my consulting career, attended school and self-taught in WebDev, including PHP, MySQL, CSS and a little JavaScript. I have been contracted through companies like Neumann Solutions and Vision Net. Website clients include:

        - **Katz-N-Dogs:** developed in 2009,. Logo was already created. Developed layout and was given complete creative control.
        - **Tristano's Pizzeria**: developed in 2009,. Logo was already created. Developed layout and was given complete creative control.
        - **Jeff Frahn Painting**: developed in 2009, created logo, layout, and was given complete creative control.
        - **Reins Tree and Landscape**: developed in 2008, client created logo, but was given creative control with permissions.
        - **Westwood Cabinetry**: developed in 2008, client had full creative control.
        - **Neumann Solutions:** developed in 2007, was given full creativity including logo.
        - **ACES Diving**: developed in 2006, given design abilities, short of color scheme.
        - **dubba.com**: developed in 1998. Coded in PHP (with MySQL), CSS, and Flash.
        - **JSM Cleveland**: developed in 2007, created logo, design and layout.
        - **Divorce 2 Dating**: developed in 2007, developed main Flash header.
        - **New Leaf Medical**: already developed, re-wrote some HTML code.
        - **Chancellor Health Partners**: reworked main header, developed Flash piece.
        - **VWB Research**: helped code some of their style sheets.
- **1998 – Present : Self-Employed PC Consultant**
    - o Job details include building, maintaining and repairing personal computers, small business net works, database design, and eventually graphic and web work.
    - o Gained experience in continuing to keep motivated in being my own self-sustaining company, as well as customer relations, finance and time management.
- **1995 – 1999 : Drive-Thru Coffee Shop Manager**
    - o Job details included managing inventory and personnel, as well as serving the public.
    - o Experience in high volume distribution, balancing a cash register and people pleasing skills.
